

## Job Description

<b>Job Title</b>	<i>Project Manager</i>
<b>Department</b>	<i>Bennamann Ltd</i>
<b>Reports to</b>	<i>Programme Manager</i>
<b>Responsible for</b>	<i>n/a</i>

## Job Purpose

- Delivery of the full project lifecycle for a series of novel, engineering research and development projects to enable the use of cryogenic liquid methane as an alternative fuel.
- Working with industry partners to integrate highly innovative technologies into cost effective, high performance and environmentally responsible solutions for application in agricultural vehicles.
- Technologies that prove successful in the demonstration phase will need to be industrialised. This will require engagement with industrialisation partners, relationship development and creation of delivery contracts

## Duties and responsibilities

### Project Management

- Accountability for delivering the projects to cost, time and quality with ownership of the project P&L
- Work closely with the technical and commercial leadership to ensure the strategic objectives of the company can be delivered through the execution of the projects
- Responsible for project planning, resource management, risk management, financial forecasting and change management
- Report project progress to customers, industry partners and the Bennamann senior leadership team
- Develop strong relationships with the technical teams and the day to day management of the projects
- Provide the leadership and pragmatism to ensure the projects are successfully delivered in a fun, collaborative environment and in accordance with the company values.

## **Reporting and communication**

- Regular communication with all project stakeholders to ensure clarity in both project performance and project delivery

## **Team**

- Proactive member of motivated and engaging team
- Participate actively in team meetings and proactive in own review and development
- Supportive member of project management team, role modelling Bennamann values in both internal and external relationships

## **H&S**

- Responsible for own H&S and that of your direct reports, adhering to company guidelines be this in an office / workshop setting, on site, in a vehicle and / or any other reasonable context
- Highlight any H&S risks you identify to management
- Ensure you have any and all reasonable PPE and highlight any deficiencies to management who will address as required
